PRESS RELEASE: Statement for Recent arrest of Washington County Employee

This past weekend, an employee who works for Washington County was arrested on charges in a different state.

I'm only releasing this statement for clarification that this individual is an employee of the county not the City of Washington and that after fielding many questions as to what's going on with the charges from residents of the City, I have to say this situation involves no City employees and that I as Mayor of the City have no comment or answers to the situation. All questions should be directed to the office of the Washington County Commissioners and not the officials of the City of Washington.

Thank you

Mayor JoJo Burgess
