

7-2-2025

PRESS RELEASE FROM MAYOR JOJO BURGESS'S OFFICE:

Mayor Burgess and the Solid Waste Department met with Bigs/Earthwise Environmental Solutions Representatives today and identified several of the recent issues that City residents have had with their solid waste service.

The problems over the past few weeks were addressed and the city was assured that these issues should be resolved within the next couple of weeks.

Some residents were incorrectly advised by the Earthwise Environmental representatives that their trash pickup day was changed. This information was incorrect and Earthwise Environmental has confirmed that the pickup day remain the same.

If you experience a solid waste issue, please reach out to the City Solid Waste Department at 724-223-4030.
